

Verbal Intervention™ Trauma Training, 3rd Edition

CONTENT OUTLINE

Program Summary and Philosophy

CPI's *Verbal Intervention™* Trauma Renewal Program facilitates a deeper understanding of the course that the Certified Instructor will be teaching back at their organization and provides Instructor Training for participants to enhance their skill set related to teaching the course and integrating it within your organization. They'll practice strategies to identify escalating behaviors in others as well as use effective approaches to intervene during different crisis levels through the lens of trauma. Participants will gain a broad range of tools to help them manage their own emotional responses and implicit bias in stressful situations.

The blended program is comprised of two parts. Part one is an online course which includes Introduction to Trauma and *Verbal Intervention™* training. Introduction to Trauma provides an overview of trauma, including the causes of trauma, its prevalence in the world, and resources to be trauma-responsive in your practice. Specific examples and intervention strategies are shared. *Verbal Intervention™* training provides a review of the core program content. Part two has two classroom or live virtual days that focus on application of *Verbal Intervention™* content, Instructor Training, and specialized trauma content.

The classroom program has two and a half classroom days, which include core *Verbal Intervention™* content, Instructor Training, and specialized trauma content.

Any Certified Instructor who has completed the *Verbal Intervention™* Foundation Course is able to participate in the *Verbal Intervention™* Renewal course.

Crisis Prevention Institute trains and certifies designated people from your organization. After they have been trained by a CPI Global Professional Instructor and successfully passed all components, including the instructor exam, they are qualified to teach at your organization using the approved CPI training materials.

Facilitation Methods

The online portion of the course presents the content through narration, video, and interactive activities. The content learned in the online portion of the course will be practiced in the classroom.

Live virtual or classroom portions of the course include use of an Electronic Presentation with activities that will aid participants in the implementation of the *Verbal Intervention™* training. Participants will complete teach backs of the content.

Program Objectives

- Identify types of trauma and their impact.
- Apply the principles of trauma-responsive practice to working with individuals in your care.
- Use the philosophy of *Care, Welfare, Safety, and SecuritySM* and a person-centered and trauma-informed approach when responding to a person in distress.
- Interpret distress behaviors and address the cause of the behavior to de-escalate the situation.
- Assess risk of behavior using the *Decision-Making MatrixSM* and identify preventive strategies to mitigate risk.
- Identify and respond appropriately to various levels of crisis behaviors.
- Manage your own emotional responses to distress behavior.
- Use your communication skills to be supportive and strengthen your interventions to de-escalate potential conflict situations.
- Use directive strategies when verbally intervening to de-escalate defensive behaviors.
- Use the *Decision-Making MatrixSM* in the moment of Risk Behavior to determine Safety Interventions that represent a reasonable, proportionate, least restrictive, and last-resort course of action.
- Use safety intervention strategies to maximize safety and minimize harm in situations where behavior presents an imminent or immediate risk of harm to self or others.
- Apply a process for support and learning at the end of a crisis situation.

Training Materials:

Participant Workbook: Each training participant receives a Participant Workbook to enhance learning, organize the participant's thoughts regarding concepts taught in the program, and serve as a valuable reference tool following the program.

Instructor Guide: Those who successfully complete this program receive a comprehensive Instructor Guide to assist them in facilitating thorough and effective staff training that is consistent with program quality standards, policies, and procedures.

Instructor Kit: All participants who successfully complete this program receive an Instructor Kit. This kit includes resource materials necessary to teach their first program.

Please note:

- Organizational and participant-specific needs will impact timing. When classroom time is reduced, practice and application will be limited. In these situations, informal follow-up training opportunities will strengthen staff skills and learning while improving performance.
- Policy/procedure and participant-specific needs should determine the program option delivered.
- You are strongly encouraged to maintain a record of each program you've facilitated and the names of the participants in those programs.
